Gwinnett County, Georgia --- www.gwinnettcert.org

Hello Fellow CERTs!!

I want to let everybody know that we had a call out on 5-15 and we responded quickly and professionally. The call out was for a search for a missing boy from the night before. 23 people were able to be deployed to the call out and 12 others were able and ready for a relief team or 2nd shift. I am proud of how we responded and by doing so in the fashion demonstrated; we built confidence in not only our members but with the GCEMA and police departments. They were very surprised at the turn out and were thankful to our organization. I thank each of you who were available and I look forward to seeing you at the next one. For those who did not respond or able to respond, we would welcome you to the next call out which I would like to see double the number from this last one. Please join us in helping our community.

We were able to have a tent/booth at Snellville Days which is always good to reach out and seek those who would like to be prepared. I would like to see more involvement in this area. Manning the booth is very interactive and a good opportunity to share your experiences with those who are interested in helping others and themselves.

Please put it on your calendar, July 25th will be our 2nd annual meeting. We had 82 people attend the first one and we are looking to break that record this year. Please plan on attending. We are lining up speakers and agenda now and as of now includes John Oxendine as a main speaker.

This is a good time to be involved and to gain updates on where GCCERT is and where it is going. Please come and join us for this event.

There is a training class upcoming on Electrical hazards that is filling up fast. Please sign up at your earliest convenience. Training classes are continuing and moving forward and the more your trained, the better you can be prepared to yourself, your family, and the community if you so wish to deploy that training.

We just graduated Class 10 so we are now over 200 members. We plan on having at least 2 more classes this year so please talk it up to your neighbors and get them signed up for class.

That is all for now. Thank you all for being CERT members
